TITLE : BLANK-FORM TRAY

ABSTRACT : PURPOSE: To permit blank-forms to be taken-out one by one in order by constituting a blank-form tray for copying machine so that the blank forms which are copy-processed and discharged are put between two belts one by one in order and taking-out said forms by rewinding the belts.

CONSTITUTION: Blank-forms 10 are fed between belt-feed rollers 2 and 2', and a revolution shaft 7 revolves. Plates 8 and 8' and belt taking-up shafts 9 and 9' revolve, and belts 4 and 4' supplied from belt taking-out shafts 3 and 3' are taken-up in long elliptical form into between shafts 9 and 9', and blank-forms 10 are put one by one between belts 4 and 4' and accommodated. The belts 4 and 4' are taken-up in layered form in the state of holding blank-forms 10 between shafts 9 and 9', by the revolution of the shaft 7.

Blank-forms can be taken-out one by one in the reverse order by winding the belts in the reverse direction. With such constitution, blank-forms can be taken-out one by one in the separated state, arrangement is not required even in case of back surface printing, and convenient use is permitted.
